Goddard's "The Ecological Script" versus "The Script of Ecological Invasions"). In 2010, San Francisco startup Quip published a proof of concept citation web application. In 2011, GoCitation was spun off as a separate company. See also Catchy title References Further reading People/Place/Word: Practice. e-Patent, April 2014. L. McCarney, M. Smith, and C. Townsend. "Nucleotide and amino acid homology between the genes encoding DNA polymerase and the P gene of wheat streak mosaic virus." Virology (1992). External links SciEngage: The Research Management Tool for Scientists GoCite/CiteIt Web Site Category:Digital libraries Category:Academic publishingThe need to maintain the authenticity of documents in database systems has caused a shift in the focus of document-processing solutions from systems that process batches of documents to "online" systems that process single or a few documents. The complexity of such online systems tends to be higher than the complexity of batch processing solutions and can range anywhere from a small number of programs for a simple application to very complex programs with hundreds of optional software modules, extensions, components and libraries. This complexity in the online environment makes it very difficult ba244e880a
