tricks. Sinking health care costs a challenge in south India Thursday, September 19, 2013 By AP, The government of India and its health care system are negotiating the terms of what has been described by its prime minister as a "war" against poverty. As several World Bank projects demonstrate, finding cost-effective ways of improving public health care, especially child health care, can go a long way toward this goal. d4474df7b8
