[button link=""]Download Pixel Fruit Generator Serial Key for Android[/button] Display user information from database using GridView I have a GridView which is populated from data that comes from a DB using a SqlDataSource. I am trying to create an edit page for my user, and display their information in the gridview so when they click edit, it takes them back to the Edit page. I have tried adding a textbox into the column, but it seems to overwrite the information instead of populating the information. This is what I have tried so far.

```
DataTable dt = new DataTable(); SqlDataSource sds = new
SqlDataSource(); sds.ConnectionString =
ConfigurationManager.ConnectionStrings["conn"].ConnectionString;
sds.SelectCommand = "Select * from Users"; sds.Fill(dt); GridView gv
= new GridView(); gv.DataSource = dt; gv.DataBind(); protected void
btnEdit_Click(object sender, EventArgs e) { TextBox txtname =
(TextBox)GridView2.Rows[0].Cells[1].FindControl("txtname");
TextBox txtaddress =
(TextBox)GridView2.Rows[0].Cells[2].FindControl("txtaddress");
TextBox txtcontact = (TextBox)GridView2.Rows[0].Cells
