My name is Carl and I am the founder of Windows 7 Appliance. My mission is to deliver a next generation PC that is optimized for Windows 7. Although current Windows PCs are rock solid, there are still a number of issues that can make it challenging to get those old PCs up and running smoothly. I've been running Windows 7 for a couple of years now and I just love the improvements that Microsoft made to their Windows operating system. Unfortunately, Windows 7 is the operating system of your PC life. At some point in time, it will probably become the operating system that will stick with you the longest. This Windows 7 Software Collection will allow you to have better utilization of your Windows 7 PC's most powerful components! To the best of my knowledge, this is the only Windows 7 Software Collection on the market that combines four solutions into one easy to use suite of software applications. * Distributes Windows 7 through a foolproof process, where a four step install process leaves the PC in excellent condition, with no problems. * Installs and configures the most powerful components on your PC, using the Power Control feature! * Creates an easy to use, powerful and stable Windows 7 environment, while keeping the keyboard, mouse and sound card in their correct locations! * Allows you to easily install and run Windows 7, without the need for a Windows installation CD * Pro's and Con's and Tips & Tricks, you'll find them here!
