Creative Cloud is a subscription-based platform that gives you a single click access to dozens of industry-leading creative applications, giving you one-click previews and rich file sharing. Additionally, you can get discounts on the software and other Creative Cloud features. This is a powerful, comprehensive, and affordable program. Photoshop also has a lower-cost, more basic version (Photoshop Elements). ## Elements Photoshop Elements is an all-in-one program that enables you to edit photos, create images, retouch photos, create new ones, make slideshows, and create web galleries. Adobe offers both a lower-cost version, which is available for download from the Adobe website (www.adobe.com/creativecloud/download), or free

for the "lifetime" version (Essentials) that includes a web-based editing workspace for a single user. A membership option (Creative Suite) offers full versions of Photoshop, Lightroom, InDesign, and more. You can purchase the version of Elements you prefer, but there is no difference between them. The Elements is a quick and easy way to edit photos and make slideshows. The more advanced tools and features are very useful for serious photographers and others who need to create more professional results. ## Lightroom Although Photoshop Elements and Lightroom are similar in their capabilities, the latter has a powerful collection of tools for photographers, including spot healing, filters, and a more robust cataloguing system that makes this application far more than a simple

image editor. This program is aimed at photo managers and those who want to create light-work prints. It offers many special editing effects, incredible powerful tools to adjust all aspects of color and black-and-white images, and easy-to-use interfaces. ## Bridge Photoshop Elements adds the Bridge toolbox, which is used for sorting, organizing, and managing digital images. It is very efficient for importing images from

What's New in the Photoshop CS4?

The effect of transport stress on swine in transit on two commercial transport platforms was evaluated. The effect of transport stress on the animals was determined by measuring serum cortisol, glucose and lactic acid concentrations using commercially available enzymatic kits. Three hundred and one swine from two sources were transported to a contract abattoir by a combination of road and sea vessel. Seven hundred and twenty samples were collected from three consecutive legs and body positions of swine on three commercial transport platforms. When compared by transport platform, within and between-platform differences were determined to assess the impact of platform on

cortisol and lactic acid concentrations. Cortisol concentrations were different (pMake an Appointment About I Want To Say..... I am a life coach and have been working as an interim coach in the workplace for many years. My understanding of human nature and corporate world combined with my personal experience of learning and change has given me a unique edge to help people in their careers and personal lives. I work hard to understand the challenges people face in their work, family life and relationships and to provide real and tangible support and strategies that will help them overcome the obstacles and achieve their goals. As a coach you want someone who can show empathy in the moment and be realistic about the situation. You want someone who can provide

practical suggestions for action. You want someone who you can trust and who will ask the hard questions and keep you honest. And you want someone who cares. Working through my life coach training and my years of experience in personal and corporate coaching, I have a keen sense of
